Professional Summary

- I am an undergraduate developer from Bournemouth.
- I am studying Computer Science (Business Information Technology) at Bournemouth University.
- I love development and regularly follow professional tutorials to improve my knowledge.
- I am a confident and thrive in professional environments.
- I am reliable, focused and determined to get the job done through individual or team-based efforts.

Some Relevant Competencies

C#	Cloud Knowledge,	SQL, NOSQL,	OS independent, but prefer Windows	HTML, CSS, JS,	GitHub	Have used most of the	Umbraco (developed with)
.NET				Bootstrap, jQuery,	Jira, Slack	typical developer	
.NET Core	Domain management and configuration	Firebase, Mongo, SMSS	Full hardware knowledge	React	etc.	software.	Sitecore (content editing)

There is a more detailed breakdown on my website of the different technologies/tools I am aware of or have used, under the 'skills and tools' section. I have worked in collaborative environments, used project management software and am familiar with Sprint style stand-ups. I am always open to learning.

Relevant* Work History

Greenwood Campbell | 02/07/2018 to 20/09/2019 | Support Developer | Industrial Placement

- I fixed bugs and actioned change requests to improve legacy projects.
- I was regularly onboarded and involved in new projects.
- I solved client support requests (bug reports, change requests, new quotes).
- Production of chatbots & Google and Alexa voice assistants with/without back end code.
- Front-end technologies: HTML, CSS, JavaScript, jQuery.
- Back-end/data technologies: C#, .NET & SQL mainly.

LV= | 22/07/2018 to 19/09/2019 | Contracted Content Editor

- I was responsible for wireframe creation, content changes and sprint planning.
- CMSs: Sitecore, C5.
- I received excellent feedback at the end of this contract. Heavy teamwork focus.

* I have had other jobs (retail, own work etc) that aren't relevant to this profession, but still taught me valuable workplace experience.
